CAREER OBJECTIVE

Motivated and detail-oriented MERN Stack Developer with 1 year of hands-on experience in developing full-stack web applications. Passionate about building scalable, efficient, and user-friendly solutions. Seeking a challenging position to contribute to dynamic team environments and solve real-world problems through modern web technologies.

SKILLS

Technical Skills

- Frontend: HTML, CSS, JavaScript, React.js, Tailwind CSS
- Backend: Node.js, Express.js, PHP
- Database: MongoDB, MySQL
- Tools & Platforms: Git, GitHub, Firebase, REST API

Other Skills

- Problem-solving and team collaboration
- Graphic design (Adobe Illustrator, Canva)
- Skilled in computer usage (MS Office, Google Workspace, internet tools)
- Leadership and organizational skills

PROJECTS

ARZOOQ – Islamic E-commerce Platform (Real Client Project | Live Business)

- Developed and maintained the official e-commerce website for ARZOOQ, a running Islamic clothing & merchandise brand.
- Implemented product listings, category filtering, cart system UI, responsive design, and an optimized user-friendly layout.
- Worked on brand-focused UI/UX, ensuring visual consistency aligned with real business branding.
- Technology Used: React.js, Node.js, Express.js, MongoDB, Tailwind CSS.
- The platform is actively used by customers and supports ongoing business operations.

PetNestBD – Pet Adoption Platform

- Developed a pet adoption platform where users can browse, filter, and view pets for adoption.
- Implemented SEO optimization, dynamic meta tags, pet details page, and category-based filtering.
- Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB.

Bistro_Boss – A Restaurant Website

- Developed a full-stack restaurant ordering application using React.js (frontend) and Node.js, Express.js, MongoDB (backend).
- Implemented user authentication, menu management, and order handling system.
- Integrated REST API for seamless data exchange.

Job Portal – Job Seeking & Recruitment System

- Built a role-based job portal with job posting, job apply, and job CRUD operations.
- Implemented JWT authentication, Google Login, and Firebase Auth.
- Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB.

DIU Smart Transport System (In Progress)

- Developing a web-based bus pass and route management platform using MERN Stack.
- Features include live bus tracking, route management, student/faculty pass system, and admin dashboard.
- Working on user authentication, real-time data management, and responsive design.
